

Semester Evaluation of Student Performance via Advisor

Student being evaluated:

Completed by:

Date:

The questions in this evaluation form are based on the [Learning Outcomes](#) and developmental goals for PhD students in the Department of Engineering Education. Please fill out this form based on your assessment of the respective student. Reflect on the student's work throughout the past semester. Please return the completed form to the student being evaluated.

1 = Unsatisfactory · 2 = Below expectations · 3 = Meets expectations · 4 = Exceeds expectations

Note: If you are unable to evaluate certain areas based on your interaction with the student, please rate "N/A"

<i>ENGE Grad Program Goals:</i>	Rating (1-4)	Comments
Conduct and direct research in engineering education		
Develop, review, and critique effective research designs		
Effectively teach engineering subjects		
Design and assess engineering courses		
Address critical issues facing engineering education		
Degree Progress		
Service/Outreach		

<i>Development Goals:</i>	Rating (1-4)	Comments
Creativity—originality of approach, thoroughness of thoughts		
Productivity, preparation and planning—ability to cope with work load, disposition, setting of priorities		
Cooperation—commitment and contribution to peer group, interest in others		
Communication—written		
Communication—oral		
Initiative and independence—makes suggestions, supervisor dependency, ability to decide independently		

Semester Evaluation of Student Performance via Advisor

During the past semester, how frequently did you interact with the student? Was the student accessible and available? Was the student receptive to feedback? Please explain:

Additional feedback:
